YURAC 26/6/3.

Dear Andrew, It was nice to hear from you after all these years The Delahoye 135 MS with chassis and engine nos 60158 and Figoni-Folaschi drop head coupé N° 744, registration nos 451 JWB. Peter Agg and ESV 335 according to the Delahoye and Figoni archives:

First owner: JEANTET, 54 Rue Ampère PARIS registration N° 627 RMA (PARIS MARCH 1939)

Original colors: "TORPEDO GRAND SPORT ROUGE ANDALOU, Poignées dans milieu moulures grande lunette arrière en plexiglass"

translation: "Roadster Grand Sport, Andalous Red, handles in the middle of the chrome strip, big rear window plexiglass"

I have nothing more and I think it would be difficult to find anything because the PARIS registration archives for 1939 have been destroyed. But you could try to find the previous registration nos in U.K. and ask Peter Agg who did he buy the car from etc.... in 1982. The chassis was built early 1939, and the car looks very authentic to me, in a very classic Figoni style. There was an article on this car in some magazine, but I don't know which one! With best regards and good luck.

André
